**FOR IMMEDIATE RELEASE**

## **SECOND VIRTUAL COFFEE WITH PWD DIRECTORS SCHEDULED FOR AUGUST 5**

*Palmdale, CA* – Two Palmdale Water District (PWD) Board

Directors will hold individual Facebook Live events next week to continue honoring their commitment to transparency and being accessible to their constituents, despite a global pandemic.

The second Virtual Coffee with PWD Board Directors will feature President Vincent Dino and Director Don Wilson on Wednesday, Aug. 5, at 9 a.m. and 10 a.m., respectively.

The Directors will be on Facebook Live on PWD's Facebook page, @palmdaleh2o. Written questions can be submitted as Facebook messages before or during the events, and will be answered by the Directors.

“It is important that we keep communicating with our residents during these trying times,” President Dino said. “We know that transparency and accountability are essential to the public, especially during the current situation. I encourage anyone with questions about PWD or folks who

(more)

are interested in getting to know Director Wilson and me to please join the livestream.”

PWD customers are represented by: Director Robert E. Alvarado, Division 1; Director Wilson, Division 2; Director Gloria Dizmang, Division 3; Director Kathy Mac Laren Division 4; and President Dino, Division 5.

During the COVID-19 pandemic, PWD employees continue to work to carry on our mission to serve our customers. Our work is considered an essential service by the government, so we are testing water, fixing pipes, checking meters, processing payments, and doing everything to keep the District operating. PWD customers should be assured that their water is clean, safe and plentiful.

Since 1918, the Palmdale Water District has provided high-quality water at a reasonable cost. We pride ourselves on providing great customer care; advocating for local water issues that help our residents; educating the community on water-use efficiency; and leading our region in researching and implementing emerging technologies that increase operational efficiency. For more information about PWD, visit [www.palmdalewater.org](http://www.palmdalewater.org).
